

Bo

See what people say about it:

"I have really enjoyed participating in the student communication workshops. These have enabled me to share my experiences of communication (both good and bad!) with students and facilitate practice of their communication skills prior to starting clinical placements."

Sarah a PIER member SU Conversations activity Communication skills for Nursing practice.

"Being involved makes me feel like I have gone back to work, like I am important, that I have a role and can help make a difference. At home I feel useless today I have achieved."

Chrissy a Community Researcher on a project to better understand what helps and what hinders people with MS to be involved in their community.

"I find that these sessions for me are very therapeutic not only to talk about the problems that dementia causes in my life but also to try and change the understanding of the future OT's."

Jacqueline a PIER member on Year 1 Occupational Therapy session on Dementia Carers.
